

ML2021Spring HW6 Report

<生物機電碩一> <詹閱棋>

<r09631050>

AFD Score	FID Score
0.718	7712.64

The methods I used to pass the strong baselines include:

1. StyleGAN2
2. The number of the total pictures in the dataset will affects the result, do the same thing of decompression but might have different outcome.
3. Increase the network capacity can improve the final results.
